PRIVATE BILLS.

EXCERPT FROM RULES AND ORDERS RELATING TO PRIVATE BILLS.

RULE 59.

ALL APPLICATIONS for Private Bills, properly the subject of legislation by the Legislative Assembly of British Columbia, within the purview of the "British North America Act, 1867," whether for the erection of a Bridge, the making of a Railway, Tramway, Turnpike Road, or Telegraph or Telephone Line; the construction or improvement of a Harbour, Canal, Lock, Dam, Slide, or other like work; the granting of a right of Ferry; the incorporation of any particular trade or calling, or of any Joint Stock Company; or otherwise for granting to any individual or individuals any exclusive or peculiar rights or privileges whatever, or for doing any matter or thing which in its operation would affect the rights or property of other parties, or relate to any particular class of the community, or for making any amendment of a like nature to any former Act,—shall require a Notice, clearly and distinctly specifying the nature and object of the application and, where the application refers to any proposed work, indicating generally the location of the work, and signed by or on behalf of the applicants, such notice to be published as follows:—

In the BRITISH COLUMBIA GAZETTE, and in one newspaper published in the District affected, or if there be no newspaper published therein, then in a newspaper in the next nearest District in which a newspaper is published.

Such notice shall be continued in each case for a period of at least six weeks, during the interval of time between the close of the next preceding Session and the consideration of the Petition, and copies of such notice shall be sent by the parties inserting such notice to the Clerk of the House to be filed amongst the records of the Committee on Standing Orders.

57. No Petition for any Private Bill shall be received by the House after the first ten days of each Session, nor may any Private Bill be presented to the House after the first three weeks of each Session, nor may any Report of any Standing or Select Committee upon a Private Bill be received after the first four weeks of each Session, and no Motion for the suspension or modification of this Rule shall be entertained by the House until the same has been reported on by the Committee on Standing Orders, or after reference made thereof at a previous sitting of the House to the Standing Committees charged with consideration of Private Bills, who shall report thereon to the House. And if this Rule shall be suspended or modified as aforesaid the promoters of any Private Bill which is presented after the time hereinbefore limited, or for which the Petition has been received after the time hereinbefore limited, shall in either case pay double the fees required as herein mentioned, unless the House shall order to the contrary. Any person seeking to obtain any Private Bill shall deposit with the Clerk of the House, eight days before the opening of the Session, a printed copy of such Bill, a copy of the Petition to be presented to the House, *together with the notices published.* At the time of depositing the Bill, the applicant shall also pay to the Clerk of the House a sum of three hundred dollars. If a copy of the Bill, Petition and notices shall not have been so deposited in the hands of the Clerk of the House at least eight days before the opening of the Session, and if the Petition has not been presented within the first ten days of the Session, the amount to be paid to the Clerk shall be six hundred dollars. If the Bill shall not pass second reading one-half of the fees paid shall be returned.

60. Before any Petition, praying for leave to bring in a Private Bill for the erection of a Toll Bridge, is received by the House, the person or persons intending to petition for such Bill shall, upon giving the notice prescribed by rule 59, also at the same time and in the same manner, give notice of the rates which they intend to ask, the extent of the privilege, the height of the arches, the interval between the abutments or piers for the passage of rafts and vessels, and mentioning also whether they intend to erect a draw-bridge or not, and the dimensions of the same.

61. All Private Bills for Acts of Incorporation shall be so framed as to incorporate by reference the clauses of the General Acts relating to the details to be provided for by such Bills:—Special grounds shall be established for any proposed departure from this principle, or for the introduction of other provisions as to such details, and a note shall be appended to the Bill indicating the provisions thereof in which the General Act is proposed to be departed from. Bills which are not framed in accordance with this Rule shall be re-cast by the promoters and re-printed at their expense before any Committee passes upon the clauses.

All Private Bills shall be prepared by the parties applying for the same, and printed in Small Pica type, twenty-six ems by fifty ems, on good paper, in imperial octavo form, each page when folded measuring 10 $\frac{3}{4}$ inches by 7 $\frac{1}{2}$ inches. There shall be a marginal number every fifth line of each page; the numbering of the lines is not to run on through the Bill, but the lines of each page are to be numbered separately. Two hundred copies of each Bill shall be deposited with the Clerk of the House immediately before the first reading. If amendments are made to any Bill during its progress before the Committee on Private Bills, or through the House, such Bill shall be reprinted by the promoters thereof.

DOMINION ORDERS IN COUNCIL.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Friday, the 11th day of January, 1901.

PRESENT:

HIS EXCELLENCY THE GOVERNOR-GENERAL
IN COUNCIL.

WHEREAS lots numbers one (1) and two (2) in block number four (4) in the Town of Revelstoke, in the Province of British Columbia, were conveyed to the said Province of British Columbia on or about the 13th day of May, 1886, by Arthur Stanhope Farwell, to whom letters patent had been previously issued by the Crown, as represented by that Province, for a parcel of land of which these two lots form part:

And whereas under the final judgment, rendered in an action in which the Queen, on the information of the Attorney-General of Canada, was plaintiff, and the said Arthur Stanhope Farwell was defendant, the patent so issued to him by the Province of British Columbia was in effect declared of no force and effect, and he was ordered to execute to Her Majesty the Queen, in the right of the Dominion of Canada, a surrender of all the unsold parts of the tract so patented to him:

And whereas such surrender was executed accordingly, and it was thereupon decided, wherever the circumstances permitted, to issue to the purchaser from Mr. Farwell of any part of such tract, or to any person shewing a satisfactory chain of title from such purchaser, letters patent therefor of Her Majesty, as represented by the Dominion of Canada, and as letters patent do not issue from the Dominion of Canada to a Province, it is desirable that the title of the Province of British Columbia to the two lots above mentioned be confirmed by the Governor in Council:

Therefore, His Excellency, by and with the advice of the Queen's Privy Council for Canada, is pleased to order that the title of Her Majesty Queen Victoria, for the purposes of the Province of British Columbia, to the above-mentioned lots numbers one (1) and two (2) in block number four (4) in the Town of Revelstoke, in the said Province of British Columbia, shall be and the same is hereby confirmed.

JOHN J. MCGEE,
Clerk of the Privy Council.

BOARD OF HORTICULTURE.

OFFICE OF THE BOARD OF HORTICULTURE,
DEPARTMENT OF AGRICULTURE,
5th March, 1901.

The following Rules and Regulations adopted by the Board of Horticulture at a meeting of the Board held at the office of the Board on the fifth day of March, 1901, are published in pursuance of section 7 of the "Horticultural Board Act."

J. R. ANDERSON,
Deputy Minister of Agriculture.

Rules and Regulations made and published under authority of Section 7
of the "Horticultural Board Act."

Title.

1. These Regulations may be cited as the "Horticultural Regulations."

Definitions.

2. In these Regulations the word "pests" shall mean and include woolly aphis, apple tree aphis, scaly bark louse, oyster-shell bark louse, San Jose scale, red scale, borers, codlin moths, currant worms, caterpillars, or other known injurious insects, and all fungous diseases. "The Board" shall mean the Provincial Board of Horticulture.

Notification of the Presence of Pests.

3. All nurserymen, fruit-growers, and all persons, owning, occupying or managing an orchard, garden, or nursery infected with any pest, shall notify the member of the Board for the district in which such orchard, garden, or nursery is located, or the Secretary or Inspector, or the agent of the Board in the district, of the fact that such orchard, garden or nursery is so infected.

Inspection of Nursery Stock.

4. All importers, agents for importers, or consignees of nursery stock, trees or plants, must give notice to a member of the Board, or his agent, or the Inspector of Fruit Pests, upon the arrival of any nursery stock, trees or plants, before the removal of such nursery stock, trees or plants from any dock, wharf, mole, station, or warehouse where such nursery stock, trees, or plants have been landed, and if such nursery stock, trees, or plants are found to be free of insect pests and fungous diseases, the said member of the Board, his agent, or the Inspector of Fruit Pests, shall issue a certificate to that effect; and all such nursery stock, trees, or plants, if found to be infected with any insect pest or fungous disease, shall be dealt with according to the Rules and Regulations of the Board. All dealers, nurserymen, or persons selling or distributing nursery stock, trees, or plants for which no clean certificate is in force shall, before

distributing or offering for sale any article above mentioned, notify the member of the Board, his agent or representative, in whose district any such article is found, or the Secretary of the Board, or the Inspector of Fruit Pests, who shall inspect, or cause to be inspected, such nursery stock, trees, or plants, and if they are found to be free from pests, shall issue a certificate to the owner or person in charge, stating that said articles appear to be free from pests. Such certificate shall be in force for three months from date of issue, unless revoked by further inspection.

Disinfection of Nursery Stock, Trees and Plants.

5. All persons owning or having in their possession nursery stock, or trees and plants of any kind, infected with insect pests or fungous disease, shall cause the same to be disinfected and cleansed by using the remedies herein prescribed, or such other insecticides and fungicides as may be found effective, and are approved by a member of the Board or the Inspector of Fruit Pests, and no such inspected nursery stock, trees, or plants shall be sold, forwarded, distributed, or parted with until a certificate of the satisfactory cleansing thereof shall have been obtained from a member of the Board or his agent, or the Inspector of Fruit Pests. Any member of the Board or the Inspector of Fruit Pests may order the destruction, by rooting out and burning, of all infected nursery stock, trees, or plants of any kind, if, in the opinion of such member of the Board or Inspector of Fruit Pests, such a course is considered expedient in the interests of the fruit-growing industry.

Inspection of Imported Fruit.

6. All importers, agents for importers, or consignees of fruit must give notice to a member of the Board or his agent, or the Inspector of Fruit Pests, upon the arrival of any and all shipments of fruit; and all fruit and fruit packages imported into this Province shall be inspected, and if found to be free from insect pests and fungous disease a clean certificate shall be issued therefor, in conformity with the Rules and Regulations of the Board: Provided, however, that no fruit or fruit packages imported into this Province shall be removed from any dock, wharf, mole, or station where such fruit and fruit packages have been landed, before inspection, and such clean certificate thereof shall have been obtained, and all such fruit and fruit packages as may be found infected with any insect pest or fungous disease shall be either destroyed by the importers thereof, by such process and within such time as any member of the Board, the Inspector of Fruit Pests, or any agent appointed by the Board, may direct, or shall be re-shipped, within such time as any member of the Board, the Inspector of Fruit Pests, or any agent appointed by the Board, may direct, by the importers thereof, to some point without the Province: Provided, however, that fruit which has been con-

demned shall not be transported through the Province. Packages containing infected fruit shall be marked with a distinctive mark or brand at the time of the inspection thereof by the inspecting officer. It shall be an offence against the Rules and Regulations of the Board of Horticulture to deface or remove such mark or brand.

Inspection of Imported and Home-grown Fruit.

7. All fruit, whether imported or grown in this Province, or exposed for sale, shall be subject to inspection under the authority of the Board, and if found to be infected with any injurious insect pest or fungous disease shall be quarantined, or may be destroyed at the expense of the owner of said fruit, by such methods as the Board or its agents may direct. Packages containing quarantined fruit shall be marked with a distinctive mark or brand at the time of the inspection thereof by the inspecting officer. It shall be an offence against the Rules and Regulations of the Board of Horticulture to deface or remove such mark or brand.

Stencilling and Labelling.

8. All persons shipping, sending or delivering any fruit, fruit trees, scions, cuttings, or plants within the Province, shall place upon or securely attach to each box, crate, or other package or parcel containing the same a distinct stamp, mark or label showing the name of the producer and shipper or sender, and the locality where grown. Boxes and barrels containing fruit shall be stencilled or stamped accordingly with letters not less than three-quarters of an inch in length.

Treatment of Nursery Stock.

9. All infected nursery stock shall, before being distributed, be disinfected by dipping in a solution of one pound caustic soda (concentrated lye) and one pound whale-oil soap to every five Imperial gallons of water, thoroughly dissolved, and applied

at 130° Fahrenheit, in a vat or any suitable vessel, or the said nursery stock may be disinfected by covering with an air-tight tent or box, and for each and every 100 cubic feet of space therein one ounce of fused cyanide of potassium (58 per cent.,) one fluid ounce of sulphuric acid, and three fluid ounces of water shall be used. The cyanide of potassium shall be placed in an earthenware vessel, the water poured over the said cyanide of potassium, afterwards adding sulphuric acid, and the tent or box to be immediately closed tightly and allowed to remain closed for not less than forty-five minutes. Treatment for disinfection shall continue until all insect pests or their larva are destroyed.

Remedies.

10. For the extirpation of the “woolly aphis” and other insect pests, the Board has adopted the following formulæ, which are found to be effectual in the States of California, Oregon and Washington:—

Spray No. 1.

(Winter Spray for Woolly Aphis and Scale Insects.)

Ingredients.

Lime, unslaked	30 lbs.
Sulphur, powdered.....	20 "
Salt, coarse	15 "
Water	60 gals.

Directions.

Place 10 pounds of lime and 20 pounds of sulphur in a boiler with 20 gallons of water, and boil over a brisk fire for two hours, until the sulphur is thoroughly dissolved. It will then be amber-coloured. Next place 20 pounds of lime in a cask and pour water enough over it to thoroughly slake it. Add the salt. When dissolved, add to the lime and sulphur and boil half an hour longer. Add enough water to make 60 gallons. Apply lukewarm.

Directions for use.

Spray when the trees are dormant, or as soon as the leaves fall, and again in the spring before the buds swell. A good force-pump should be used, and care must be taken to thoroughly cover the infected trees with the mixture, which should be constantly stirred when applying.

The above preparation can be obtained in solid form, requiring only the addition of water to be ready for use, and, owing to the difficulty of preparation, the Board advises the adoption of this method. Care should be taken to add the necessary quantity of water to reduce the mixture to the strength recommended above.

NOTE.—To insure freedom from lumps it is advisable to pass the mixture through a wire sieve or strainer. Nozzles which are self-cleaning and adjustable, such as the “Improved Bean” and “Bordeaux,” are best adapted for distributing this and other spraying mixtures which contain a considerable amount of solid matter.

Spray No. 2.

(Summer Spray for Aphis.)

Ingredients.

Quassia chips	8 lbs.
Whale-oil soap.....	7 "
Water	100 gals.

Directions.

Boil the quassia chips in about one gallon of water to each pound quassia chips for one hour. Dissolve the soap in hot or boiling water; strain and mix both together, and add the required amount of water to make 100 gallons altogether.

To be used with spray pump with as much force as possible. This is the standard remedy for aphis in hop yards, and has given good results against other forms of aphides wherever tried, with no injury to foliage.

Spray No. 4.

(Bordeaux Mixture for Apple-scab and other Fungous Diseases.)

Ingredients.

Sulphate of copper (bluestone)	4 lbs.
Fresh unslaked lime	4 "
Water	50 gals.

Directions.

In a barrel place 25 gallons of water. Weigh out 4 pounds of sulphate of copper; then tie the same in a coarse gunny sack and suspend it just beneath the surface of the water. By tying the bag to a stick laid scross the top of the barrel, no further attention will be required.

In another vessel slake the 4 pounds of lime, using care in order to obtain a very smooth paste free from grit and small lumps. To accomplish this it is best to add only a small quantity of water at first, say two or three pints. When the lime begins to crumble and the water disappears, add more water gradually.

If added carefully and slowly a smooth paste will be obtained, provided the lime is of good quality. Then add sufficient water to bring the whole up to 25 gallons.

When the copper sulphate is entirely dissolved and the lime cool, pour the lime, milk and copper sulphate solution slowly together in a barrel, and stir well with a broad wooden paddle to ensure perfect freedom from lumps of lime; it is often necessary to pass the whole mixture through a fine wire sieve or strainer before commencing to spray. For apple and pear-scab, spray before the buds open. Repeat before the blossoms expand, and again after the blossoms fall. If necessary, repeat again in ten days' time; this will depend upon weather conditions and variety of fruit treated.

The Vermorel nozzle, which distributes the spray in a mist-like foam, is probably the best for use with this mixture.

Spray No. 8.—Hellebore.

(For Pear and Cherry Slugs, Gooseberry and Currant Worms.)

For use with spray pump take 1 ounce hellebore to 1 gallon of water. Steep the hellebore in 1 pint of boiling water for an hour, then add the balance of water, cold. Hellebore is, however, generally used in the powder form, dusted on the trees or plants treated. A machine for the purpose is the best method of using it on a large scale. In all cases care should be taken to get fresh hellebore to ensure satisfactory results.

Spray No. 9.—Paris Green Spray.

(For Codlin Moth, Caterpillars and other Leaf-eating Insects.)

Ingredients.

Paris green	4 ozs.
Fresh slaked lime	1 lb.
Water	50 gals.

Make a paste of the Paris green with a little water. Make the lime into milk of lime with water. Mix all together and add water to make the required amount.

Paris green is a heavy powder, and does not remain long in suspension, hence it must be kept constantly stirred when using. Be sure that good lime is used to prevent burning of foliage. Apply with spray pump. London purple may be used in place of Paris green, but is not usually so reliable.

Paris green or London purple can generally be used to advantage with Bordeaux mixture, making a combined fungicide and insecticide. Use in the proportions given above, viz., 4 ounces Paris green to 50 gallons Bordeaux mixture.

Spray No. 15.—Lye and Soap Wash.

(For winter use only.)

Ingredients.

Concentrated lye	1 lb.
Whale oil soap	1 lb.
Water	5 gals.

Directions.

Dissolve the lye and soap in the water, heated. The mixture may be applied with a swab or brush, or with the spray pump if used warm.

One thorough application in the fall and another before growth commences in the spring should be made when used against woolly aphides. This is also an excellent wash to remove moss or lichen from trees and bushes, and for this purpose alone half the amount of soap is sufficient.

For further information regarding insect pests and spraying mixtures, see Horticultural Bulletin, which can be obtained from members of the Board, or by application to the Department of Agriculture, Victoria.

11. Where pests or fungous diseases are found to exist during the growing season, while the trees are in leaf, spraying must be done and such remedies applied as shall be recommended by or under authority of the Board from time to time, so that the insects or diseases can at least be held in check until the stronger washes of the dormant season can be safely applied.

Destruction of Packages.

12. All boxes, crates or other packages or wrappings which have contained infected nursery stock shall be destroyed by fire immediately after the removal of the contents thereof.

Hop-fields.

13. Where hop-fields are infected with the hop-louse, spraying must be done as the Board from time to time shall recommend.

Quarantine Regulations.

14. Transportation companies, express companies, wharfingers, or warehousemen receiving or conveying nursery stock, trees, plants or fruit shall convey, or cause the same to be conveyed, to one or other of the quarantine stations, or to such other point as provided in section 15 of these Regulations, but shall in no case deliver, or cause to be delivered, such nursery stock, trees, plants or fruit, or any portion thereof, to the owners, consignees, or any other person whatsoever, without the written permission of the quarantine or inspecting officer.

A quarantine officer may also, if in his opinion such a course is necessary, detain any nursery stock, trees or plants for the purpose of disinfection, at a quarantine station, until such quarantine officer is satisfied that all infection is removed: Provided, however, that in no case shall the inspection of nursery stock, trees, plants and fruit be done by a quarantine officer having any pecuniary interest in the same.

Such charges and expenses to be paid before a certificate is granted.

When nursery stock, trees or plants are found to be infected with insect pests or diseases, a charge of fifty per cent. will be added to the foregoing rates to pay expenses of the quarantine officers for supervising disinfection and subsequent inspections.

On fruit—viz., apples, pears and quinces—the minimum fee shall be \$1.00 for any number of boxes up to 33, and all in excess of this number shall be at the rate of three cents per box. On fruit packed in barrels the fee shall be \$1.00 for any number of barrels up to 10, and for any number of barrels over 10 the fee shall be at the rate of ten cents per barrel.

It is furthermore provided that all other varieties of fruit shall be subject to inspection, if deemed necessary, on the same terms and subject to the same fees as those above mentioned.

Certified invoices will be required.
